BOOM IN STEEL WAS WEEK'S FEATURE ON STOCK EXCHANGE

SENSATIONAL ADVANCES AND DECLINE IN WHEAT MARKET

Paris Bourse Project Still Influential and New Price Levels Are Reached.

OF PROSPERITY

Low Stage of Country's Merchan Money Market.

tainty, and the aggressive upturn in United States Steel was the only decisive change in the list. This was of much sympathetic effect in holding the

much sympathetic effect in holding the general list,

Steel absorbed a large part of the aggregate dealings. Its rise to new record levels in the 70's is based on the confident belief that it will be placed on a 4 per cent, basis at the next quarterly meeting. This expected action, it is supposed, is connected with the project to list the stock on the Paris Bourse.

Cheerful Feeling.

Parls Bourse,

Clicerful Feeling,
The detailed showing of cheerful 132% feeling in the steel trade, a rising tendency of prices, and expanding requirements of consumers take their place among the most important signs of 111% growing prosperity, and the rise of 111% tudes is generally assumed by financial authorities.

tudes is generally assumed by financial authorities.

The dull and uncertain movement in the stock market, outside of United States Steel, is accepted as appropriate to the season. Confidence in the healthy restoration of prosperity is undisturbed and the ultimate yield of crops, profitable beyond all the country's experience, is counted upon.

The waiting attitude of the speculation is combined with an apparent de-

tion is combined with an apparent de-termination to hold to stocks until the

termination to hold to stocks until the uncertainties shall be cleared away. Last week's heavy requirements on the money market made an appreciable but slight effect on interest rates. National banks returned \$5,000,000 of government deposits, and will be called upon to return \$16,000,000 more on August 15. The renewal of plans for a Panama Canal bond issee, reported from Washington, opens up a new factor in the influence between the government fiscal operations and the money market.

money market.

1 Exports Falling Off.

The rapid decline in foreign exchange rates last week put a stop to the outgo of gold to Europe, but large engagements continue for Argentine.

The check to wheat exports, Europe's resort to Argentine for supplies, and that country's strengthening of listrensury reserve by government financial operations, call for large remittances.

chandise exports and the heavy import movement are indicated by the \$7,-000,000 excess of import values over exports for June, the first for any month since 1897.

DRY GOODS.

NEW YORK, July 18.—Prices con-tinue to advance in the cotton goods and cotton yarn markets. The effect 1224 of selling agents is to bring values 1254 cotton, and as the values are still irregularly below that basis in many instances, dally fluctuations in the speculative raw material markets do not affect merchandising adversely at the opening of the jobbing season.

Buyers of goods and yarns are operating conservatively, but the demand is broadening steadily.

rating conservatively, but the demand is broadening steadily, not only for spot merchandise from the agents, but in all cotton goods to be made for future delivery. Weak places in the heavy cotton goods market are being eliminated, as shown in the advances in duck, osnaburgs, drills, sheetings, etc.

Sales of print clebbs decided.

year was done on a basis of second cotton, and exporters are ready to face a higher cotton market before

goods.

Evidence of a larger fall trade are coming forward from the retailers of shrough the jobbers. A large business has been done in 3-4 worsteds for spring, and the largest men's wear shrough the jobbers. The shrough the jobbers was sharped by the volume of the shrough the jobbers. The shrough the jobbers was sharped by the jobbers was sharped by the volume of the jobbers were should be sh business tendered. Knit goods and 10034 hosiery were more active. Staple dress goods for spring are being ordered well.

THE STOCK MARKET OF THE WEEK.

IRON AND STEEL.

NEW YORK, July 18.—Large sales of pig iron have been made in the Eastsern territory during the week. The contracts, east of the Allesheny Mounts, east of the Allesheny Mounts, east of the Allesheny Mounts, east of 100,000 tons of foundry, forge, basic and malleable Bessemer, while in the Pittsburg territory orders for steel-making iron and malleable Bessemer have aggregated 60,000 tons.

In the East about one-fourth of the tonnage placed has been for basic iron for delivery over the last quarter, and a 25-cents-per-ton advance has been obtained only a portion of the contracts placed. The sales of foundry iron have included only a small additional tonnage for the International Harvester Company and the American Radiator Company. The most significant buying in has been done by the railroads and railroad equipment shops, but pipe works, manufacturers of textile machinery and machine tools, hardware and general jobbins founders have been 1004 works, the house of the hundred for the purchasers. A large part, probably pipe-tents of the hundred for the prominent purchasers.

SAFE MATERIAL

SAVES MONEY

Made of hardware, notably butts and hinges.

In finished and semi-finished steel products additional liberal contracts been a decrease in the volume of orders are placed for fabricated structural steel true, and yet specify the best material, and important orders are pending for car works and bridge orders are also pending for 2,300 steel under frames for cars, calling for 10,000 tons of building shapes. Orders actually placed have been only 4,000 tons, while orders for forgings and castings while orders for forgings and castings tructural steel products. There are more inquiries, however, for plain structural steel quiries, however, for plain structural steel related everywhere also. The lime and sement used in the building are very often the most vital points. Just specify that these two items as well as your other building material come from S. H. Hawes & Co., Eighteenth and Cary Streets, and then you know you are getting the best on the market. That's the cheapest way to do.

Railroads have piaced of 50,000 tons of heavy and bridges and viaducts, calling for 10,000 tons of being so building shapes. Orders actually placed have been only 4,000 tons, while orders for forgings and castings call for spoul tons of building shapes. Violent Break in Cotton Chie Feature of Week in That Quarter-Future Prospects.

held back last season were handsome-by rewarded. Needless to say, the re-cent exqessive rains and resultant floods have served to make farmers more confident than ever. Undoubt-edly much more wheat would have reached Wesbern markets ere this had not the floods put a stop to har-vesting, etc. vesting, etc.

The drought in Argentina remains The drought in Argentina remains practically unbroken, there having been only light showers there, and hence the surplus in that country promises to be small. This is especially unfortunate now that nearly all importing countries will need larger quantities than in the past year. Later Developments.

Toward the end of the week the market was exceedingly feverish and unsettled, prices fluctuating in a spas-33 + 114 market was exceedingly feverish and unsettled, prices fluctuating in a spasmodic way owing to the many conflicting influences. There was, however, a decided decline in cash prices, and July contracts, and especially in 303%-3% 3154-5% Southwestern markets, mainly anticipating for the better weather and subsidence of the hotter weather and subsidence of the floods. The conspicuous break in July deliveries suggested that a large short interest had been eliminated in short interest had been eliminated in all markets. In a few hours July in St. Louis fell 6c., in Chicago 63-4, and in Toledo 81-4, but in other markets the decline was comparatively

Meanwhile, the remote deliveries only weakened slightly, as they had been selling at a big discount, and hence many who had taken in handsome profits in July were replacing with September or December. Buyding was partly stimulated by encouraging cables and reports of a larger export business in new wheat and discuss for forward spinnerics. and flour for forward shipments,

14 As to Corn.
15 There was a rising tendency in corn
16 decline were nervous and anxious to
18 cour partly owing to the ble addecline were nervous and anxious to cover, partly, owing to the big ad-vance in wheat and on fear of dam-age by excessive rains and resultant floods. It was feared that cultiva-tion would be prevented by the high water in bottom lands. Hence it was imagined that farmers' deliveries would continue small. This would

imagined that farmers' deliveries would centinue small. This would be especially unfortunate in view of the wonderful scarcity of contract grades. Indeed, the total of all kinds in sight is extremely small.

Later there was a weaker feeling, mainly caused by the return of warm, clear weather, which will doubtless be of great benefit to the crop. Recently business in the cash market was dull, as exporters had almost no orders at reasonable limits.

The violent break in the market of 45 points yesterday following the slump of 30 points the previous day was such a sharp and unexpected fluctuation that it upset the calculations of the trade. The suddenness of the decline caught a great many thinly margined accounts of local operators and outsiders who had been induced to buy too freely on the bulge early in the week, when prices were on the basis of 127-8 cents.

The result was acavy forced liquidation came on the market when it was unprepared, and prices therefore went down with even greater rapidity on this selling movement than they had advanced during the recent bullshness and buying fever.

On yesterday's break the next crop options, were carried town to the

On yesterday's break the next grou

On yesterday's break the next crop options were carried 'down to the basis of 11.90 to 11.95 for deliveries from October to next May, inclusive, with the market closing only 10 points above those prices.

Factors in the Market.

The break has been attributed by most traders as due to reports of good rains in Texas breaking the drought and excessively high temperatures in Texas of the past fortinght. It, however, seems to have been more directly the result of the heavily overbought condition of the heavily overbought condition of the market. The hasty readjustment of

DVANCES AND

WHEAT MARKET

Excessive Rains, Followed by Better Weather, Make Trade Feverish and Excited.

RISING TENDENCY IN CORN

Speculative accounts came at a time when spot dealers were putting out fresh ledges against holdings of actual colton, and the outside demand had slackened and the market was commencing to show the effects of heavy profit-taking by old buils who had loaded up during the rise from 10.1-2 cents. The shorts had been eliminated, and there was a heavily congested condition on the built side, it, therefore, only needed the sentimental effect of the reported rains in Texas to start general liquidation.

Once under way there was no heading it off with the sold out big buil

ing it off with the sold out big bull leaders and the heaviest spot dealers arranged aggressively on the bear arranged aggressively on the bear side. Thus within four days the slump in prices has extended to 30 and 100 points, or nearly the equiva-lent of 1 cent per pound or \$5 per

strong trees.

Tet—Futture Prospects.

Tet—Futture Prospects.

The strong trees and the process in virtually all the leading markets of the work in the process and the process reached just and the country overshadowed all other considerations of the week, Indeed, at the process to come more or less ignored. Therefore, while the short bulge established on the process and the process and December were comparatively sluggish, and consequently the premium on July widened at a rapid rate, particularly widened at a rapid rate, particularly on Wednesday, when July bounded upward in a sensational fashion. The stand in grate it, and the stand in grate it is done of the own work of the stand in grate it is done of the own work of the stand in grate it is done of the own with a son and the process and of the own with a son and many markets, and without the help of artificial manipulation. The extraordinary action of the market was corner, but if the market was corner to the process and the process and prought about entirely too much confidence and aggressiveness among the bears, who had become astonishingly middle of the process against the recklessess dispared to the fact that all those who had become astonishingly where the process against the recklessess dispared to the process against the recklessess dispared to

Grace Street Homes

No. 1834 W. Grace Street
